## POINTS

on-going score (I used a zero as the character)

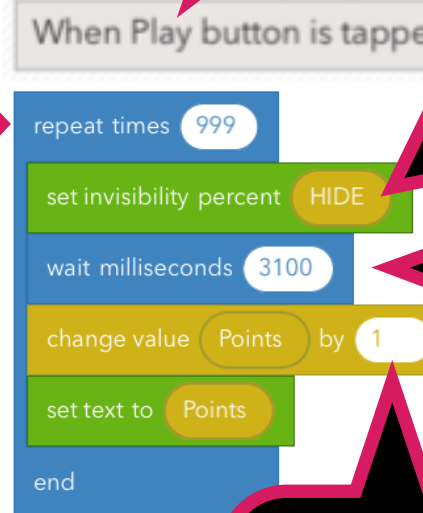

**HIDE value**  
Used to hide all stuff at game over

Hides until the Title's hidden

**POINTS** has 2 PLAY button commands

Repeat for the whole game

Will hide when told to

I Timed the obstacles & give a point every 3.1 seconds

Give a point !

**FINAL SCORE**  
Make Bigger on screen

Invisible at start

This keeps it checking for game end

The Bird's collision sets this to 0 and shows the final score

**FINAL SCORE**  
Updates to what points are every screen tap
